SUMMARY

Bachelor of Science in Information Technology graduate with hands-on experience in technical support, hardware and software troubleshooting, network connectivity, computer maintenance, printer configuration, and end-user assistance gained through an internship with the Department of Education – Schools Division of Sorsogon City. Also experienced in secretariat and administrative support, including document preparation, records management, coordination, and assisting with office operations and events. Adept at providing technical and administrative assistance, detail-oriented, adaptable, and committed to delivering reliable and efficient support in an entry-level IT role.

TECHNICAL SKILLS

- **Web Development:** HTML 5, CCS 3, Bootstrap 5, Tailwind CCS
- **Mobile Development:** React Native, Expo
- **Backend & Databases:** MySQL, Firebase
- **Tools & Platforms:** VS Code, Figma, Draw.io, Canva. Vercel, Git/Github
- **Additional Skills:** IT Support, Troubleshooting

EXPERIENCE

Department of Education – Schools Division of Sorsogon City | Sorsogon City, Philippines

Information Technology & Administrative Intern

August 2025 – November 2025

- **Dual-Assignment Support:** Completed nearly 500 hours of technical and administrative service, simultaneously supporting the Information Technology Section and the Office of the Assistant Schools Division Superintendent (ASDS).
- **Secretariat & Executive Support:** Served as temporary secretary to the ASDS, managing executive schedules, tracking critical files, and routing incoming and outgoing official correspondence.
- **Financial & Travel Coordination:** Prepared official travel documents and processed cash advances and reimbursements; collaborated directly with the Regional Office to expedite financial processing for leadership.
- **IT & Digital Maintenance:** Conducted routine hardware maintenance, provided tier-1 technical support, and updated digital content for the DepEd Sorsogon City official website.
- **Graphic Design:** Conceptualized and designed digital and print publication materials for division-wide distribution and public announcements.
- **Cross-Functional Collaboration:** Rendered ad-hoc assistance to other division units and sections as needed, ensuring continuous and adaptive operational support across the agency.

PROJECTS

Occasio: A Mobile Event Planning Application Featuring Augmented Reality (AR) for Venue Viewing - Capstone Project

<https://occasio-official.vercel.app/>

Sole developer responsible for full-stack implementation on a 3-person capstone team, collaborating with a system analyst and a documentarian to deliver the complete software solution.

- **Immersive 3D Visualization:** Developed a mobile application featuring walkable Augmented Reality (AR) to allow users to remotely explore 3D event venues in Sorsogon City, reducing physical site-visitation constraints.
- **Full-Stack Mobile Development:** Built the application utilizing the Agile methodology with React Native and Expo Go for the frontend, Firebase for backend database management, and Cloudinary for media cloud storage.
- **AI & Productivity Features:** Integrated an AI-driven venue recommendation engine, collaborative workspaces, real-time task management, and digital RSVP tracking via shareable links.

Tech stack: React Native, Expo, Tailwind CSS (twnc), Firebase Authentication, Firebase Firestore.

Quaestio

<https://play.google.com/store/apps/details?id=com.quaestio.app.a1b2c3d4>

Served as the Project Manager, System Analyst, Software Tester, and Documentarian for a 6-person capstone team, leading the end-to-end lifecycle, quality assurance, and technical documentation of the mobile application.

- Developed a reactive cross-platform mobile app capable of processing real-time polling data and sentiment-driven comment votes.
- Implemented serverless backend logic with Firebase for instantaneous data pipeline synchronization and zero-latency analytics rendering.
- Enforced secure session management and authorization protocols utilizing industry-standard authentication frameworks.

Tech stack: React Native, Expo, Tailwind CSS (twnc), Firebase Authentication, Firebase Firestore.

Freelance Website

Freelance client project

Managed the end-to-end delivery of custom freelance websites, including professional portfolios for independent clients and academic project websites for students.

Tech stack: HTML 5, CSS 3, Tailwind CSS, Bootstrap 5
